Product highlights

Ease the transition from bottle feeding

Baby enjoys the comfort of using a familiar bottle. The soft teat features a variable flow, which allows you to gradually increase the flow of liquid.

Easy-grip handles

These Easy-grip handles help your baby learn to drink independently.

Non-spill, easy-sip spout

Designed to be gentle on your baby's gums and easy-sip, the Magic Valve flexes when baby drinks to effortlessly deliver a continuous flow of liquid, then closes when not used to prevent spills.
